The commission

The commission is composed of the following members:

President:	Prof. Steven Stillman
Vice President:	Prof. Marjaana Gunkel
Member:	Prof. Roberto Farneti
Member:	Dr. Ralf Lüfter
Member:	Prof. Monica Rosini
Member:	Prof. Francesco Ravazzolo
Member:	Dr. Sylvia Hubner

Criteria and selection procedures

The Commission will prepare a general list and several rankings divided by destination considering the

following criteria:

a) **Credits - 30%**

The amount of total credits earned for the exams passed and registered by **10 March 2022** divided by the number of curricular credits (*) of the passed exams that a student should normally have accomplished at the end of each semester. This calculation will take into account the number of semesters since the first registration of the student in the Faculty of Economics, regardless of the year of the course in which he/she is enrolled at the time of the ranking's publication.

(*) Since the students of the Bachelor in Economics and Social Sciences are obligatorily required to earn 20 credits at another university, preferably abroad, the amount of credits to be considered for this purpose is 2/3 of the credits that a student should normally earn at the end of each semester, should he/she pass all the exams required by the study plan.

b) **Average mark - 50%**

c) **"Proposal of Learning Activities to carry out abroad" – 20%**

The candidate must complete, in English, a "Proposal of Learning Activities to carry out abroad" indicating the reasons for his/her choice and, if applicable, the courses he/she intends to attend at the partner institutions and a proposal for their recognition (see the relevant sections in the online application form).

Students must earn at least **70 points out of 100** to be included in the ranking.

Students who in their current study career have not yet completed a mobility period under the Erasmus+ or Bilateral Agreements programmes will have priority in the ranking of eligible candidates, regardless of the score obtained, over students who in their current study career have already completed a mobility period under the aforementioned programmes.

In case of an equal score, the student with the highest average mark will have the priority.

In case of a repeated equal score, the younger candidate will have the priority.

Student's Citizenship: if the country of citizenship coincides with the country of the chosen university limited to this choice - the student will be placed on the ranking after students whose nationality does not coincide.
