ALUMNI TALKS

How my startup brought me to the Olympic Games and winning a World medal

Maicol Verzotto is an alumnus of the Bachelor in Economics and Management at the Free University of Bozen-Bolzano.

He has achieved considerable success in his sporting career: he won a bronze medal in the 3m mixed synchro at the World Championships in Kazan in 2015, a silver medal in the 3m mixed synchro at the European Swimming Diving Championships in London in 2016 and a gold medal in the 3m mixed springboard and bronze in the 10m mixed synchro in Kiev in 2017.

In 2013 he founded Functional srl, a young and dynamic company specialised in the production, development and marketing of functional food and medical devices. Focusing his efforts and investments to develop a new medical division, the young start-up based at NOI Techpark has been able to react to the pandemic crisis and keep being successful.

Programme

→ Startup Functional srl

→ Partecipation to the Olympic Games

→ Open discussion with space for questions

When?

26.05.2021, h 18:00-19:00

Target

Students and graduates of unibz

Participation modes

MS Teams

Registration deadline

24.05.2021
