Digitalization of production processes — Industry 4.0

Duration: 24—27 September 2019

3 days of lectures + final exam

Max participants: 20

BITZ unibz FabLab

Rosministraße — Via Rosmini 9, BZ

Learn about Smart Factories with the focus on Manufacturing Execution System (MES): we will create a simple MES solution together!

After attending this course participants will possess basic notions of:

- Manufacturing paradigms and the concept of smart production
- Manufacturing Execution Systems (MES)
- Visualization of production data for decision making

Prerequisites:

Basic knowledge of Java programming and web development

Registration:

Limited places (20) – Register as soon as possible!

By 28 June 2019, send an e-mail

to computer.science@unibz.it including:

- (1) a presentation of yourself
- (2) the detail of your skills in computer science
- (3) your motivation for attending the course
